NEW QUESTION: 1

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a computer named Computer1 that runs Windows 10. A service named Application1 is configured as shown in the exhibit.

You discover that a user used the Servicel account to sign in to Computer1 and deleted some files.

You need to ensure that the identity used by Application1 cannot be used by a user to sign in to the desktop on Computer1. The solution must use the principle of least privilege.

Solution: On Computer1, you assign Servicel the deny log on as a service user right.

Does this meet the goal?

- A. No
- B. Yes

Answer: B

Explanation:
