74970X Exam Reference | Pass-Sure 74970X Valid Test Forum:
Avaya Oceana® Solution Support Exam

Most of the content there does not correspond **74970X Exam Reference** with the latest syllabus content, If you buy it, you will receive an email attached with 74970X test study guide instantly, then, you can start your study and prepare for 74970X exam test.

We promise you will have brand experience that you **74970X Exam Reference** never got before, You may think 100% guarantee pass rate is hard to achieve; however, we can assure you that our 74970X exam study material is definitely a reliable choice and we will take responsibility for your passing the 74970X exam.

These interactions have inspired us to do better, Our 74970X exam questions want to work with you to help you achieve your dreams, Besides, the questions which you have made mistake can be marked for next review.

As for the safe environment and effective product, why don't you have a try for our 74970X test question, never let you down, Despite the similar sounding titles, each test does have its own particular focus and depth.

All the contents of the 74970X study cram are selected by our experts, It will help you to accelerate your knowledge and improve your professional ability by using our 74970X vce dumps.

When you decide to prepare for the 74970X certification, you must want to pass at first attempt.

NEW QUESTION: 1

Given:

```
public class X implements Z {
public String toString() { return "I am X"; }
public static void main(String[] args) {
Y myY = new Y();
X myX = myY;
Z myZ = myX;
System.out.println(myZ);
}
}
class Y extends X {
public String toString() { return "I am Y"; }
}
interface Z {}
```

What is the reference type of myZ and what is the type of the object it references?

A. Reference type is Z; object type is Z.

- B. Reference type is X; object type is Z.
- C. Reference type is Z; object type is Y.
- D. Reference type is Y; object type is Y.

Answer: C

NEW QUESTION: 2

You have a pay-as-you-go Azure subscription that contains the virtual machines shown in the following table.

You create the budget shown in the following exhibit.

The AG1 action group contains a user named [\[email#160;protected\]](#) only.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Box 1: VM1 and VM2 continues to run

Answer:

Explanation:

Explanation:

When the budget thresholds you've created are exceeded, only notifications are triggered. None of your resources are affected and your consumption isn't stopped. You can use budgets to compare and track spending as you analyze costs.

Box 2: one email notification will be sent each month

Budget alerts for Resource Group RG1, which include VM1, but not VM2. VM1 consumes 20 Euro/day. The 50% ,500 Euro limit, will be reached in 25 days, and an email will be sent.

The 70% and 100% alert conditions will not be reached within a month, and they don't trigger email actions anyway.

NEW QUESTION: 3

What is the function of the palletizing data in the second Warehouse Management view of the material master? (Choose two)

- A. Material to be putaway must always be palletized according to this palletization data
- B. The palletization data consists of default values for putting away the material.
- C. Palletizing data enables us to automate putaway
- D. The palletizing data consists of default values for removing the material from storage

Answer: A,C

NEW QUESTION: 4

Refer to the exhibit.

A packet with a source IP address of 192.168.2.4 and a destination IP address of 10.1.1.4 arrives at the AcmeB router. What action does the router take?

- A.** forwards a packet containing an ARP request out the FastEthernet0/1 interface
- B.** forwards a packet containing an ICMP message out the FastEthernet0/0 interface
- C.** forwards the received packet out the Serial0/0 interface
- D.** forwards a packet containing an EIGRP advertisement out the Serial0/1 interface

Answer: B

Explanation:

CCNA - EIGRP Common Question

<http://www.orbitco-ccna-pastquestions.com/CCNA---EIGRP-Common-Question.php>

Explanation:

Looking at the output above, there is no IP route for 10.1.1.4 address on AcmeB routing table. If the router can no find a specific path in its routing table to a particular route, (In this case no path is found so AcmeB) the router will inform the source host with an ICMP message that the destination is unreachable and this will be through the same interface it has received the packet (interface Fa0/0 network 192.168.3.0/28 from the exhibit).
