NEW QUESTION: 3
You are developing a .NET Core model-view controller (MVC)
application hosted on Azure for a health care system that
allows providers access to their information.
You develop the following code:

You define a role named SysAdmin.
You need to ensure that the application meets the following
authorization requirements:
* Allow the ProviderAdmin and SysAdmin roles access to the
Partner controller regardless of whether the user holds an
editor claim of partner.
* Limit access to the Manage action of the controller to users
with an editor claim of partner who are also members of the
SysAdmin role.
How should you complete the code? To answer, drag the
appropriate code segments to the correct locations. Each code
segment may be used once, more than once, or not at all. You
may need to drag the split bar between panes or scroll to view
content.
NOTE: Each correct selection is worth one point.
