NEW QUESTION: 3

Joe, a user, in a coffee shop is checking his email over a wireless network. An attacker records the temporary credentials being passed to Joe's browser. The attacker later uses the credentials to impersonate Joe and creates SPAM messages. Which of the following attacks allows for this impersonation?

- A. Session hijacking
- B. Header manipulation
- C. XML injection
- D. Directory traversal

Answer: A

Explanation:

In computer science, session hijacking, sometimes also known as cookie hijacking is the exploitation of a valid computer session-sometimes also called a session key-to gain unauthorized access to information or services in a computer system. In particular, it is used to refer to the theft of a magic cookie used to authenticate a user to a remote server. It has particular relevance to web developers, as the HTTP cookies used to maintain a session on many web sites can be easily stolen by an attacker using an intermediary computer or with access to the saved cookies on the victim's computer.

NEW QUESTION: 4

Which of the following relatively small misstatements most likely could have a material effect on an entity's financial statements?

- A. An illegal payment to a foreign official that was not recorded.
- B. A petty cash fund disbursement that was not properly authorized.
- C. A piece of obsolete office equipment that was not retired.
- D. An uncollectible account receivable that was not written off.

Answer: A

Explanation:

Explanation/Reference:

Explanation:

Choice "A" is correct. An illegal payment of an otherwise immaterial amount could be material if there is a reasonable possibility that it could lead to a material contingent liability or a material loss of revenue.
Choice "B" is incorrect. Failure to retire a piece of obsolete office equipment is not likely to have ramifications beyond the immaterial misstatement that would result directly from it.
Choice "C" is incorrect. Failure to properly authorize a petty cash fund disbursement is not likely to have ramifications beyond the immaterial misstatement that would result directly from it.
Choice "D" is incorrect. Failure to write off a relatively small uncollectible account receivable is not likely to have ramifications beyond the immaterial misstatement that would result directly from it.
