**NEW QUESTION: 1**
You are the term store manager of a SharePoint environment. You need to make term sets available across the entire farm. You must ensure that users can reuse terms but not edit terms. Which two actions should you perform? (Each correct answer presents part of the solution. Choose two.)
**A.** Create a global term set.
**B.** Prohibit the use of keywords other than those in a specific term set.
**C.** Create a local term set.
**D.** Enable term pinning.
**E.** Prohibit grid editing in the Datasheet view.

**Answer: A,B**
Explanation:
Note: Anyone can add a new term to an open term set. Only
people who were identified as contributors to a term set group
can add terms to a closed term set in the group. For example, a
term set that represents cost centers would probably be closed.
A term set that represents contributors to a charity might be
open.
On global term set see step 8) below. Make a term set available
to other site collections After you create a term set on the
authoring site collection, you have to make it available to
publishing site collections. You can make a term set available
to all site collections or to specific site collections.
To make a term set available to all site collections: Verify
that the user account that performs this procedure is a member
of the Owners SharePoint group on the authoring site that
contains the catalog.
-
On the authoring site, on the Settings menu, click Site
Settings.
On the Site Settings page, in the Site Administration section,
click Term store
management. If the user that performs this procedure is already
a member of the
Term Store Administrators group, you can skip to step 7.
In the Term Store Management Tool, verify that Managed Metadata
Service is
selected.
- In the Term Store Administrator section, type one or more
user names. --
Click Save.
Right-click Managed Metadata Service, and then select New
Group.
Type the name of the global term set that you want to create,
and then press
Enter.
Refresh the page.
Right-click the term set that you want to make available to all
site collections, and
then click Move Term Set.
In the Term Set Move dialog box, click the global term set that
you want to move
the term set to, and then click OK.
Refresh the page.
