two repositories have 50,000 documents, mainly office and web content formats with an average size of 100K. The repositories have full-text indexing, and are configured for Documentum Collaborative Edition (DCE). The repositories at peak times have 15 concurrent transactions. IT wants to consolidate the Documentum servers using virtualization. With regard to virtualization, what is recommended?

- A. virtualize all the servers
- B. virtualize Content Server, Full-text Index Server, and SQL Server host, but do not virtualize the application servers
- C. virtualize application servers and Content Server, but do not virtualize Full-text Index Server and SQL Server hosts
- D. do not virtualize any of the servers

Answer: C

NEW QUESTION: 3

Refer to the scenario.

Your customer is a New York based law firm, operating a single office, with 300 attorneys. It offers a complete business law service across the full range of legal specialization to both US-based and international clients, with cases often spanning many jurisdictions.

The law firm has implemented HP servers and storage solution at its primary and disaster recovery sites for several years. With the increased volume of cases handled by the firm, data volumes are reaching their maximum capacity.

The primary site consists of HP BladeSystem with ProLiant server blades and HP Storage 4000 EVA, approximately 5 TB of tier one data and 11 TB of tier two data. The secondary site has similar servers, but direct-attached storage. The network infrastructure consists of HP and third-party switches and routers.

The existing server environment lacks the performance and scalability to support existing and new applications.

Furthermore, the primary site doesn't have the space to accommodate additional load. The future decision requires automating the complete operational lifecycle of the entire infrastructure.

The law firm needs to implement regulatory requirements for client confidentiality across its infrastructure. Which HP CloudSystem offering accomplish this?

- A. HP VirtualSystem CV1
- B. HP CloudSystem Enterprise with Network Automation
- C. HP CloudSystem Matrix with the Matrix Operating Environment
- D. HP VirtualSystem VS MC1

Answer: C
