Answer: B,D

NEW QUESTION: 4

Which of the following would be the BEST access control procedure?

- A. The data owner formally authorizes access and an administrator implements the user authorization tables.
- B. The data owner creates and updates the user authorization tables.
- C. Authorized staff implements the user authorization tables and the data owner sanctions them.
- D. The data owner and an IS manager jointly create and update the user authorization tables.

Answer: A

Explanation:

Explanation/Reference:

Explanation:

The data owner holds the privilege and responsibility for formally establishing the access rights. An IS administrator should then implement or update user authorization tables. Choice B alters the desirable order. Choice C is not a formal procedure for authorizing access.
