Your company purchase a Microsoft 365 subscription.

On server1, you create a file share1. You extract the Microsoft Office Deployment Tool (ODT) to Share1.

You need to deploy Office 365 ProPlus and the French languages pack from Share1 to the Windows 10 computers.

Which three actions you perform is sequence? To answer, move the appropriate action from the actions to the answer area and arrange them in the correct order.

Answer:

Explanation:

NEW QUESTION: 3

You are a professional level SQL Sever 2008 Database Administrator.

The capacity planning information is required by your company. A long-term infrastructure monitoring strategy should be implemented.

Which two actions should be contained in the strategy? (Choose more than one)

A. System monitor counters should be reviewed regularly.

B. The system log and the application log should be cleared every hour.

C. A maintenance plan that rebuilds indexes every week should be created.

D. After deployment of the production databases, the system should be baselined.

E. All databases should be backed up every day.

Answer: A,D

Explanation:

Explanation/Reference:

Atter the production deployment, vve will set a baseline of system counter in order to have metrics about the health of the server. This is usetull in order to query on a regular basis the status ot those counter. When big deviation irom the counters are seen, further investigation could be done to solve potential problem.
