Answer: D

NEW QUESTION: 2

Which of the following IBM Spectrum Virtualize features is used to monitor the health of the SAN storage? (Select one)

- A. IBM SAN Health
- B. IBM Storage Insights Pro
- C. IBM Spectrum Virtualize
- D. IBM Spectrum Control

Answer: D

NEW QUESTION: 3

Communication is important when setting and managing expectations with the stakeholders. Which one of the following statements is NOT true regarding the importance of communications within a project?

- A. Project resources should be spent primarily on communicating information that leads to project success.
- B. Communications is one of the single biggest contributors to project success or failure.
- C. Effective communications includes awareness of communication styles, cultural issues, relationships, personalities, and the context of the situation
- D. Listening is part of communicating and is a way to gain insight into problem areas, managing conflicts, and making decisions.

Answer: A

Explanation:

Communications is considered one of the single most powerful indicators of project success or failure. Effective communications includes an awareness of all types of filters that may be impeding or straining communications. Listening is vital to good communications. Resources also should be spent on determining where a lack of communications can lead to failure. [Planning] [\[email#160;protected\]](#), [\[email#160;protected\]](#) Guide, 2013, 289-291
