**NEW QUESTION: 1**

What allows for easy adoption of the Continuous Delivery Toolkit?

- A. Isolation of the builds
- B. A project generated through the provided archetypes already includes a Jenkins file which loads the CI/CD pipeline automatically.
- C. The code of the pipeline, the lifecycle management script, and the required Docker images can be updates easily.
- D. Having a local download cache
- E. Pipelines running everything in parallel, so given enough computing resources, builds run fast.

**Answer: B**

Explanation:  
Explanation/Reference:  
See page 143, S4C80 Col17.

**NEW QUESTION: 2**

Hitherto impossible research has been made \_\_\_\_\_ by the new technology recently engineered by her company with greatly enhanced scope and depth of mapping the core of the earth.

- A. controversial
- B. resolute
- C. problematic
- D. feasible
- E. commonplace

**Answer: D**

Explanation:  
Explanation/Reference:  
Explanation:

Given that the technology is new, it would hardly be Choice A, "commonplace," and since we're looking for a positive word - remembering that important tool of monitoring the tone of the sentence - Choice D, "feasible," is the best choice.

**NEW QUESTION: 3**

A network engineer is trying to implement broadcast-based NTP in a network and executes the ntp broadcast client command. Assuming that an NTP server is already set up, what is the result of the command?

- A. It enables receiving NTP broadcasts on the interface where the command was executed.
- B. It enables a device to receive NTP broadcast and unicast packets.
- C. It enables receiving NTP broadcasts on all interfaces globally.
- D. It enables a device to be an NTP peer to another device.

**Answer: A**

Explanation:  
Explanation/Reference:  
Explanation:

The NTP service can be activated by entering any ntp command. When you use the ntp broadcast client command, the NTP service is activated (if it has not already been activated) and the device is configured to receive NTP broadcast packets on a specified interface simultaneously.
