**NEW QUESTION: 1A.** Option CB. Option AC. Option DD. Option B  
**Answer: B**Explanation:ExplanationCOALESCE evaluates the arguments in order and returns the current value of the first expression that initially does not evaluate to NULL.References: <https://docs.microsoft.com/en-us/sql/t-sql/language-elements/coalesce-transact-sql>

**NEW QUESTION: 2**User-level response data is available in which of the following ways?**A.** Batch-mode and real-time.**B.** Real-time  
**C.** User-level response data is not available.**D.** Batch-mode  
**Answer: D**

**NEW QUESTION: 3**You created a view called EMP\_DEPT\_VU that contains three columns from the EMPLOYEES and DEPARTMENTS tables:EMPLOYEE\_ID, EMPLOYEE\_NAME AND DEPARTMENT\_NAME.The DEPARTMENT\_ID column of the EMPLOYEES table is the foreign key to the primary key DEPARTMENT\_ID column of the DEPARTMENTS

table. You want to modify the view by adding a fourth column, MANAGER\_ID of NUMBER data type from the EMPLOYEES tables. How can you accomplish this task? **A.** You must remove the existing view first, and then run the CREATE VIEW command with a new column list to modify a view. **B.** CREATE OR REPLACE VIEW emp\_dept\_vu AS SELECT employee\_id, employee\_name, department\_name, manager\_id FROM employees e, departments d WHERE e.department\_id = d.department\_id; **C.** MODIFY VIEW emp\_dept\_vu (ADD manager\_id NUMBER); **D.** ALTER VIEW emp\_dept\_vu (ADD manager\_id NUMBER); **E.** MODIFY VIEW emp\_dept\_vu AS SELECT employee\_id, employee\_name, department\_name, manager\_id FROM employees e, departments d WHERE e.department\_id = d.department\_id; **F.** ALTER VIEW emp\_dept\_vu AS SELECT employee\_id, employee\_name, department\_name, manager\_id FROM employee e, departments d WHERE e.department\_id = d.department\_id; **Answer: B** Explanation: When we want to alter the underlying data used in the definition of a view, we use the CREATE OR REPLACE VIEW statement. When a CREATE OR REPLACE VIEW statement is issued, Oracle will disregard the error that arises when it encounters the view that already exists with that name, and it will overwrite the definition for the old view with the definition for the new one. **Incorrect Answers:** A: There is no ALTER VIEW command in Oracle. B: There is no MODIFY VIEW command in Oracle. C: There is no ALTER VIEW command in Oracle. D: There is no MODIFY VIEW command in Oracle. F: You don't need to remove the existing view to create modified view. You are able to do that with CREATE OR REPLACE command. OCP Introduction to Oracle 9i: SQL Exam Guide, Jason Couchman, p. 310-313 Chapter 7: Creating Other Database Objects in Oracle
