How can you make your employer think highly of you?

NEW QUESTION: 1
Triangles RST and MNO are similar.What is the length of line segment MO?

A. 5 cm

B. 40 cm
C. 20 cm
D. 32 cm
E. 10 cm
Answer: E
Explanation:
Explanation/Reference:
Explanation:
The dimensions of triangle MNO are double those of triangle RST. Line segment RT is 5 cm; therefore line segment MO is 10 cm.

NEW QUESTION: 2
Which two statements are true regarding the use of firmware update packages in vSphere Lifecycle Manager?
(Choose two.)
A. The firmware and drivers add-on is provided by a third-party vendor.
B. The firmware and drivers add-on are distributed through the official VMware online depot.
C. The firmware and drivers add-on can add or remove components from the ESXi base image.
D. A hardware support manager must be registered as a vCenter Server extension.
E. The firmware and drivers add-on can be used on clusters that are managed with baselines.
Answer: C,D

NEW QUESTION: 3
Your Custer's HOFS block size is 64MB. You have a directory containing 100 plain text files, each of which Is 100MB in size. The InputFormat for your job is TextInputFormat. How many Mappers will run?
A. 0
B. 1
C. 2
D. 3
Answer: B
Explanation:
Each file would be split into two as the block size (64 MB) is less than the file size
(100 MB), so 200 mappers would be running.
Note:
If you're not compressing the files then hadoop will process your large files (say 10G), with a
number of mappers related to the block size of the file.
Say your block size is 64M, then you will have ~160 mappers processing this 10G file (160*64 ~=
10G). Depending on how CPU intensive your mapper logic is, this

might be an
acceptable blocks size, but if you find that your mappers are executing in sub minute times, then
you might want to increase the work done by each mapper (by increasing the block size to 128,
256, 512m - the actual size depends on how you intend to process the data).
Reference:http://stackoverflow.com/questions/11014493/hadoop-mapreduce-appropriate-input-
files-size(first answer, second paragraph)
