NEW QUESTION: 1Sara, a security manager, has decided to force expiration of all company passwords by the close of business day. Which of the following BEST supports this reasoning?**A.** Enforcement of password complexity requirements.**B.** A recent security breach in which passwords were cracked.**C.** Implementation of configuration management processes.**D.** Implementation of account lockout procedures.**Answer: B**
Explanation:A password only needs to be changed if it doesn't meet the compliance requirements of the company's password policy, or is evidently insecure. It will also need to be changed if it has been reused, or due to possible compromise as a result of a system intrusion.
