Many applicants are determined to apply for positions in parent company, affiliated company or products agent of PSM-I, a certification will be an outstanding advantage over others while interviewing for jobs or competing for the agent of PSM-I products.

NEW QUESTION: 1

You have two computers named Computer1 and Computer2 that run Windows 7.

You need to ensure that Computer2 has exactly the same firewall rules as Computer1.

What should you do on Computer1?

- A. Open Local Security Policy. Right-click IP Security Policies on Local Computer and then click Export List.
- B. From Windows Firewall with Advanced Security, select Export Policy.
- C. Run Winrm.exe quickconfig.
- D. From Windows Firewall with Advanced Security, click Inbound

Rules and then click Export List.

Answer: B

Explanation:

Importing and Exporting Firewall Configuration Most organizations that use clients running Windows 7 apply firewall rules through Group Policy. In the event that you need to support a number of stand-alone clients running Windows 7, you can replicate complex firewall configurations using the WFAS Import Policy and Export Policy options. Importing and exporting policy also allows you to save the current firewall configuration state before you make changes to it. Exported policy files use the .wfw extension. Exported policies use a binary format, not Extensible Markup Language (XML) format like many other Windows 7 configuration files. You can also export and import firewall policies in the same .wfw format using the netsh advfirewall export or netsh advfirewall import commands.

NEW QUESTION: 2

EBGP

- A. show ip bgp summary
- B. show ip bgp
- C. show ip bgp paths
- D. show ip bgp neighbors

Answer: D

NEW QUESTION: 3
