There are so many strong points of our 156-315.80 training materials, such as wide applicability, sharpen the saw and responsible after sale service to name, We value our client's right to privacy.

Just to prove our confidence associated with our products, we encourage the use of our free trial, You are advised to finish all exercises of our 156-315.80 study materials.

NEW QUESTION: 1

- A. Option D
- B. Option A
- C. Option B
- D. Option C

Answer: A

Explanation:

It is always possible that someone can terminate an EC2 instance using the Amazon EC2 console,

command line interface or API by mistake. If the admin wants to prevent the instance from being accidentally terminated, he can enable termination protection for that instance. The user can also setup shutdown behavior for an EBS backed instance to guide the instance on what should be done when he initiates shutdown from the OS using Instance initiated shutdown behaviour. If the instance initiated behavior is set to terminate and the user shuts off the OS even though termination protection is enabled, it will still terminate the instance.

Reference:

<http://docs.aws.amazon.com/AWSEC2/latest/UserGuide/terminating-instances.html>

NEW QUESTION: 2

Which statement accurately describes how PIM sparse mode operates?

- A. If an RP fails and there is no backup RP, new sources that begin sending will not be discovered by the other PIM routers in the network.
- B. If an RP fails and there is no backup RP, multicast traffic will cease flowing in the network.
- C. RPs can become bottlenecks, since multicast traffic must always flow through the RP and down the shared tree to get to the receivers.
- D. RPs switch each traffic flow to the shortest path tree when more than one receiver is present.

Answer: A

NEW QUESTION: 3

customer's VPC is connected to the AWS network via a 50Mbps connection. The customer wants to connect to the AWS network via a direct connection. Which of the following is the best option for the customer?

A. Amazon VPC Direct Connect

B. Amazon VPC IPsec

C. AWS Direct Connect

D. Amazon VPC VPN

Answer: C
