**NEW QUESTION: 1**

Which statement about RBAC user roles on a Cisco Nexus switch is true?

- A.** Access to a command takes priority over being denied access to a command.
- B.** The predefined roles can only be changed by the network administrator (superuser).
- C.** The default SAN administrator role restricts configuration to Fibre Channel interfaces.
- D.** If you belong to multiple roles, you can execute only the commands that are permitted by both roles (logical AND).
- E.** On a Cisco Nexus 7000 Series Switch, roles are shared between VDCs.

**Answer: A**

Explanation:  
Explanation/Reference:  
Explanation:

**NEW QUESTION: 2**

DRAG DROP

You are the Office 365 administrator for your company. Users report that their passwords expire too frequently, and they do not receive adequate notice of password expiration. Account passwords must remain active for the longest duration allowed. Users must receive password expiration notifications as early as possible.

You need to configure the password expiration policy.

How should you set the policy on the password page of the Office 365 admin center? To answer, drag the appropriate duration to the correct location. Each duration may be used once, more than once, or not at all.

You may need to drag the split bar between panes or scroll to view content.

Select and Place:

**Answer:**

Explanation:

Explanation/Reference:

Explanation:

The maximum number of days you can set the 'Days before password expire' to is 730. This will make the password valid for the longest duration.

To be notified as early as possible on that the password is about to expire, we should set the maximum value, which is 30, to the ' days before users are notified that their password will expire' setting.

Note: Set a user's password expiration policy

Sign in to Office 365 with your work or school account.

Go to the Office 365 admin center.

Go to Service settings > Passwords.

If you don't want users to have to change passwords, select Passwords never expire. If you select this

option, users won't get any reminders anymore to change their passwords.

If you want user passwords to expire, type the number of days before the password should expire.

Choose a number of days from 14 to 730.

Type the number of days before users are notified that their password will expire, and then click Save.

Choose a number of days from 1 to 30.
