Answer: D

NEW QUESTION: 4
DRAG DROP
You administer a Microsoft SQL Server database.
You want to import data from a text file to the database.
You need to ensure that the following requirements are met:
* Data import is performed by using a stored procedure.
* Data is loaded as a unit and is minimally logged.
Which data import command and recovery model should you choose?
(To answer, drag the appropriate data import command or
recovery model to the appropriate location or locations in the
answer area. Each data import command or recovery model may be
used once, more than once, or not at all. You may need to drag
the split bar between panes or scroll to view content.)
