NEW QUESTION: 1

Note: This question is part of a series of questions that use the same or similar answer choices. An answer choice may be correct for more than one question in the series. Each question is independent of the other questions in this series.

Information and details provided in a question apply only to that question.

You are a database administrator for an e-commerce company that

runs an online store. The company has the databases described in the following table.

Each day, you publish a Microsoft Excel workbook that contains a list of product names and current prices to an external website. Suppliers update pricing information in the workbook. Each supplier saves the workbook with a unique name. Each night, the Products table is deleted and refreshed from MDS by using a Microsoft SQL Server Integration Services (SSIS) package. All files must be loaded in sequence. You need to add a data flow in an SSIS package to perform the Excel files import in the data warehouse.

What should you use?

- A. Merge Join transformation
- B. Lookup transformation
- C. Foreach Loop container
- D. Union All transformation
- E. Balanced Data Distributor transformation
- F. Merge transformation
- G. MERGE statement
- H. Sequential container

Answer: B

Explanation:

Explanation/Reference:

Explanation:

If you're familiar with SSIS and don't want to run the SQL Server Import and Export Wizard, create an SSIS package that uses the Excel Source and the SQL Server Destination in the data flow.

NEW QUESTION: 2

A Case Team requests creation of a new case for a pending legal matter. The Case Team has identified required processing options, but they are unsure of language identification requirements. Which language identification options are available?

- A. Language options can be changed at any time, as long as post-processing is run after the changes are made.
- B. Language options can be changed at any time, except for the Language Preference setting and default language setting, as long as post-processing is run after the changes are made.
- C. Language options can be changed at any time, except for the Language Preference setting, as long as post-processing is run after the changes are made.
- D. Language options can be changed at any time before processing and before data has been indexed.

Answer: C

NEW QUESTION: 3

In order to locally install HIPs over a previously installed version, which of the following must be disabled?

- A. IPS Protection
- B. McAfee Agent Policy Enforcement
- C. VSE On-Access Scanner
- D. Firewall

Answer: D

NEW QUESTION: 4

Your company has just presented its new five-year strategic plan. You have received a new product request from a customer that is in line with the previous five-year strategic plan, but it does not meet the objectives of the new plan. The product description seems to have a valid business driver and to be a straightforward development effort. As project manager, what is the BEST course of action?

- A. Request a project charter from management and begin a WBS.
- B. Inform the customer of the change in corporate direction and ask him/her to take another look at the project.
- C. Submit the new product request to the PMO for review and approval before proceeding.
- D. Do a benefit cost analysis of the project and submit it for management approval.

Answer: C
