#### **NEW QUESTION: 1**

A retail company's database of record resides at a 3rd-party company that also keeps track of purchase history. That database only updates once a day where new records can be created and merged. The database uses an "Email ID," which is a numeric field that represents both the business unit and email address. The company now wants to be able to send real-time Welcome emails to people (newly registered website users) who provide their email address in exchange for getting 10% off their first order, and ensure this send is connected to "Email ID" in the database.

What key issue should be addressed? Choose 3 answers

- A. How will Marketing Cloud and the database sync up?
- B. What will be used as the Subscriber Key?
- C. Will new users have an "Email ID"?
- D. Will the company need a custom preference center?
- E. What publication lists will be used?

**Answer: A,B,C**

**NEW QUESTION: 2**

contoso.onmicrosoft.com. Azure Active Directory
