PDF & Soft & APP pass-king products for your choice.

NEW QUESTION: 1

You have changed the default port numbers for UDP, TCP and TLS in the IP Office to support a SIP Remote Worker. Which two other items need to be changed? (Choose two.)

- A. User permissions
- B. Internet Router/Firewall
- C. Client device.

AWS Direct Connect is a dedicated network connection between your premises and Amazon Web Services (AWS) that increases bandwidth availability, improves performance, lowers costs, and increases security.

B. Amazon VPC
C. AWS Direct Connects
D. Amazon VPC

Answer: A

NEW QUESTION: 4

Which of the following three options represents the components of the Teleworker Solution? (Choose three.)

- A.** Cisco 2900 Series Router
- B.** MPLS Layer 3 VPN
- C.** Cisco 880 Series Router
- D.** Catalyst 3560 Series Switch
- E.** Leased lines
- F.** Cisco Unified IP Phone
- G.** Aironet Office Extend Access Point

Answer: A, C, F

Explanation:

Explanation/Reference:

Explanation:

A Cisco ASR is used to terminate Teleworker solutions, not a 2900 series router.

Hybrid teleworker uses Aironet, Advanced teleworker uses 880, both use IP phones.

google: "at_a_glance_c45-652500.pdf" for details

The Cisco Virtual Office Solution for the Enterprise Teleworker is implemented using the Cisco 800 series ISRs. Each ISR has integrated switch ports that then connect to the user's broadband connection. The solution uses a permanent always-on IPsec VPN tunnel back to the corporate network. This architecture provides for centralized IT security management, corporate-pushed security policies, and integrated identity services. In addition, this solution supports the enterprise teleworker needs through advanced applications such as voice and video. For example, the enterprise teleworker can take advantage of toll bypass, voicemail, and advanced IP phone features not available in the PSTN.

Enterprise Teleworker Module

The enterprise teleworker module consists of a small office or a mobile user who needs to access services of the enterprise campus. As shown in Figure 2-14, mobile users connect from their homes, hotels, or other locations using dialup or Internet access lines. VPN clients are used to allow mobile users to securely access enterprise applications. The Cisco

Virtual Office solution provides a solution for teleworkers that is centrally managed using small integrated service routers (ISR) in the VPN solution. IP phone capabilities are also provided in the Cisco Virtual Office solution, providing corporate voice services for mobile users.
