If you are searching for an easy and rewarding study content to get through AZ-305 Exam, you are at the right place, How AZ-305 dumps PDF and AZ-305 Testing Engine develops exam skills?

How long will I get Microsoft Azure Solutions Architect Expert AZ-305 dumps after completing the payment, Every addition or subtraction of AZ-305 exam questions in the exam syllabus is updated in our dumps instantly.

**NEW QUESTION: 1**

Which of the following risks would not be a risk associated with a municipal bond fund?

- I. credit risk
- II. reinvestment risk
- III. currency exchange risk

- A. I, II, and III
- B. I and III only
- C. II and III only
- D. III only

**Answer: D**

Explanation:

Explanation/Reference:

Explanation: Currency exchange risk is the only risk listed that would not be associated with a municipal bond fund. Municipal bond funds invest only in bonds of state and local governments in the U.S., so there is no exposure to exchange rate fluctuations. Like corporate bonds, municipal bonds have varying degrees of credit risk. Investors are also exposed to reinvestment risk since interest payments received may have to be reinvested at lower interest rates if rates have been falling.
