What should you include in the recommendation?
A. Active Directory Federation Services (AD FS)
B. Active Directory Users and Computers
C. LDIF Directory Export (LDIFDE)
D. Active Directory Migration Tool (ADMT)
Answer: D
Explanation:
Explanation/reference:

Topic 15, Trey Research
COMPANY OVERVIEW
Trey Research is a data warehousing company that has three data centers named
Datacenter1, Datacenter2, and Datacenter3. The data centers are located in different
cities.
Trey recently acquired another company named A). Datum Corporation.
PLANNED CHANGES
Several applications are installed on the internal network servers. Trey Research plans to
make the applications accessible to the users who work from home.
Trey Research plans to migrate all of the user accounts in the adatum.com and
east.adatum.com domains to treyreseach.com.
Trey Research plans to deploy smart cards to all of the users on the network.
Trey Research plans to deploy a document storage solution that meets the following
requirements:
--
The solution must be accessible to all client computers by using a Web browser. The solution must be able to notify administrators when sensitive documents are modified.
Trey Research plans to deploy a Failover Clustering solution to host a Web application named WebAppl, WebAppl must meet the following requirements:
--
Remain available if a single server fails. Remain available if a single data center fails.
EXISTING ENVIRONMENT Business Goals Changes to the environment must require minimal hardware and software costs.
Existing Active Directory Environment The network contains two Active Directory forests named treyresearch.com and adatum.com. A two-way forest trust exists between the forests.
Adatum.com contains two domains named adatum.com and east.adatum.com. Treyreasearch.com contains a single domain. The network contains an internal enterprise root certification authority (CA).
Existing Network Infrastructure The network contains client computers that run either Windows 7 or a UNIX-based operating

system. Some users work from home on client computers that are members of a workgroup.
REQUIREMENTS Technical Requirements
Trey Research must meet the following technical requirements:
Users who work from home must be able to use local print devices.
The amount of disk space used on the users' home computers must be minimized.
Users who work from home must have the same desktop experience as users who
are connected to the internal network.
Users must be able to access the shares in the adatum.com domain after their
user accounts are migrated to treyresearch.com.
-

Security Requirements
Trey Research must meet the following security requirements: If a user forgets his or her password, he or she must be able to reset the password on his or her own. If a user forgets his or her smart card PIN, he or she must be able to reset the PIN on his or her own.
