**NEW QUESTION: 1**

- A. Option A
- B. Option D
- C. Option C
- D. Option B

**Answer: A**

**NEW QUESTION: 2**

An anti-money laundering specialist working at a bank just received a legal request from a law enforcement agency mandating the release of all financial transaction records relating to an account at the bank. The specialist immediately recognizes the account as one owned by the bank Chief Executive Officer's brother.

During research to gather the requested documents, the specialist finds several internal memos he had sent to the bank president with concerns regarding possible suspicious activity relating to this account. The specialist recalls the bank president verbally responded to each memo with an explanation of the activity and indicated there was no cause for concern. Which of the following should the specialist do with respect to these internal memos?

- A. Ask the bank president to document his instructions to the specialist.
- B. Advise the bank's senior legal advisor of the situation.
- C. Call the law enforcement agent and suggest he modify the legal request to include these memos.
- D. Place these memos in his personal files in case they are subsequently requested.

**Answer: B**

**NEW QUESTION: 3**

Which statement about partitioned indexes is FALSE?

- A. A partitioned index is made up of a set of index partitions, each of which contains the index entries for a single data partition
- B. When attaching new partitions, the SET INTEGRITY statement must be run before data in the newly attached partition will be reflected in the corresponding partition index.
- C. Each index partition contains references only to data in its corresponding data partition.
- D. Both system- and user-generated indexes can be partitioned.

**Answer: B**
