## **NEW QUESTION: 2**

HOTSPOT

The security administrator has installed a new firewall which implements an implicit DENY policy by default. Click on the firewall and configure it to allow ONLY the following communication.

1.The Accounting workstation can ONLY access the web server on the public network over the default HTTPS port. The accounting workstation should not access other networks.

2.The HR workstation should be restricted to communicate with the Financial server ONLY, over the default SCP port

3.The Admin workstation should ONLY be able to access the servers on the secure network over the default TFTP port.

Instructions: The firewall will process the rules in a top-down manner in order as a first match The port number must be typed in and only one port number can be entered per rule Type ANY for all ports. The original firewall configuration can be reset at any time by pressing the reset button. Once you have met the simulation requirements, click save and then Done to submit.

**Answer:**

Explanation:

Explanation:

Implicit deny is the default security stance that says if you aren't specifically granted access or privileges for a resource, you're denied access by default. Rule #1 allows the Accounting workstation to ONLY access the web server on the public network over the default HTTPS port, which is TCP port 443. Rule #2 allows the HR workstation to ONLY communicate with the Financial server over the default SCP port, which is TCP Port 22 Rule #3 & Rule #4 allow the Admin workstation to ONLY access the Financial and Purchasing servers located on the secure network over the default TFTP port, which is Port 69.

## **NEW QUESTION: 3**

Which two statements about the Edit Launch File window are true? (Each correct answer presents a complete solution. Choose two.)

- A. It allows a user to install new Microsoft Dynamics GP modules onto the workstation.
- B. It allows a user to view products installed on other Microsoft Dynamics GP workstations.
- C. It allows a user to change the location of a forms and/or reports dictionary to a network share.
- D. It allows a user to view the products installed on the Microsoft Dynamics GP client.

**Answer: C,D**

Explanation:

When GP and any associated 3rd party applications are installed, a file is created called Dynamics.set, aka the Launch File. The Launch File contains instructions as to which products to initiate when starting GP and where the applications, forms, and reports dictionaries are stored. Should you need to edit this file, for instance, to change the location of the reports dictionary to a shared directory, go Administration>System>Edit Launch File You install the Project Accounting module on a desktop client that runs Microsoft Dynamics GP.
