So they know our C_S4CSC_2102 study material best, Study Simulation SAP braindumps C_S4CSC_2102 answers to Renew C_S4CSC_2102 exam questions and answers pdf questions at Actualtests.

After all, the notes will help you review the important knowledge easily, With this version of our C_S4CSC_2102 exam questions, you will be able to pass the exam easily.

NEW QUESTION: 1

Which of the following is a characteristic of a federated identity system?

A. It is a single system that provides a single point of access to multiple systems.

B. It is a system that provides a single point of access to multiple systems, but each system maintains its own user database.

C. It is a system that provides a single point of access to multiple systems, but each system maintains its own user database and authentication process.

D. It is a system that provides a single point of access to multiple systems, but each system maintains its own user database and authentication process, and each system maintains its own user database.

E. It is a system that provides a single point of access to multiple systems, but each system maintains its own user database and authentication process, and each system maintains its own user database and authentication process.

Answer: A

Explanation:

Explanation

Active Directory Federation Services is a feature and web service in the Windows Server Operating System that allows sharing of identity information outside a company's network.

Scenario: Technical Requirements include:

Prevent user passwords or hashes of passwords from being stored in Azure.
