NEW QUESTION: 1

Query Limits are used to manage Query environment in the repository for users and roles and can_____.

- A.** Control aggregation
- B.** Control User Authentication
- C.** Limit Queries by maximum run time
- D.** Control Write Back Capabilities
- E.** Control runaway queries

Answer: C

Explanation:

Explanation/Reference:

Query Limits. You can limit queries by the number of rows received, by maximum run time, and by restricting to particular time periods. You can also allow or disallow direct database requests or the Populate privilege.

See figure below.

NEW QUESTION: 2

Now is an excellent time to invest in the catering business. A survey conducted by Weddings magazine found that 70 percent of the magazine's readers want a catered wedding reception. An analysis of the catering industry, however, shows that the current number of caterers can serve only 55 percent of the weddings likely to occur each year.

Which of the following, if true, would undermine the validity of the investment advice in the paragraph above?

- A.** The average wedding reception involves between 50 and 100 guests.
- B.** Only half of all catered wedding receptions include sit-down meals.
- C.** Approximately a quarter of all weddings and their associated receptions are paid for by the couples themselves.
- D.** Only half of those who say they want a catered wedding reception actually have one.
- E.** Approximately a quarter of all weddings take place without a reception.

Answer: D

Explanation:

Explanation/Reference:

Explanation:

NEW QUESTION: 3

Which of the following describes the advantage of using Fibre Channel over Ethernet (FCoE) in POWER6 and POWER7 Blades?

- A.** The AIX device driver for FCoE has been completely rewritten for the current adapter, eliminating errors and performance issues.
- B.** Component reliability on the fibre channel over Ethernet is higher than on regular Ethernet and fibre channel adapters.
- C.** The FCoE card provides both LAN and fibre channel function from a single card on the blade.
- D.** The FCoE advanced technology removes the need for any BladeCenter switching to support this function.

Answer: C
