So many people choose JN0-212 free prep material to make their weak points more strong.

NEW QUESTION: 1

You are a functional consultant for Contoso Entertainment System USA (USMF).

You need to create a new number sequence named Fabrikam that will be used to invoice a new customer. The sequence number must support the manual entry of invoice numbers.

To complete this task, sign in to the Dynamics 365 portal.

Answer:

Explanation:

See explanation below.

* Go to Navigation pane > Modules > Organization administration > Number sequences > Number sequences.

* Select Number sequence.

- * In the Number sequence code field, type a value.
- * In the Name field, type Fabrikam.
- * In the Segments section, click Add.
- * Select Alphanumeric and enter a value such as #### (for a four-digit number)
- * In the General section, ensure that Manual is set to Yes.
- * Under Number Allocation, enter 1 in the Smallest field.
- * Click Save to save the number sequence.

NEW QUESTION: 2

DRAG DROP

You administer an Azure SQL database named contosodb that is running in Standard/S1 tier. The database is in a server named server1 that is a production environment. You also administer a database server named server2 that is a test environment. Both database servers are in the same subscription and the same region but are on different physical clusters.

You need to copy contosodb to the test environment.

Which three steps should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:
