The online test engine can support Pdf MS-900-KR Files any electronic equipment and it can also support offline use.

**NEW QUESTION: 1**

Which of the following provides the best protection against a man-in-the-middle attack?

- A. Strong encryption
- B. Fiber-optic cable
- C. Firewall
- D. Strong password

**Answer: A**

Explanation:

A strong encryption provides the best protection against a man-in-the-middle attack. Man-in-the-middle attacks occur when an attacker successfully inserts an intermediary software or program between two communicating hosts. The intermediary software or program allows attackers to listen to and modify the communication packets passing between the two hosts. The software intercepts the communication packets and then sends the information to the receiving host. The receiving host

responds to the software, presuming it to be the legitimate client.

**NEW QUESTION: 2**

Click the Exhibit.

Referring to the configuration in the exhibit, which two statements are true? (Choose two.)
