Answer: D

NEW QUESTION: 3

Which of the following refers to the collection of policies and procedures for implementing controls capable of restricting access to computer software and data files?

- A.** None of the choices.
- B.** Binary access control
- C.** Logical access control
- D.** Component access control
- E.** System-level access control
- F.** Physical access control

Answer: C

Explanation:

Explanation/Reference:

Explanation:

Logical access control is about the use of a collection of policies, procedures, and controls to restrict access to computer software and data files.

Such control system should provide reasonable assurance that an organization's objectives are being properly achieved securely and reliably.
