**Answer: A**

**NEW QUESTION: 4**

Your organization has a complex retention schedule that clearly defines retention policies for all document types. Each department has its own SharePoint site. In many cases, a single document library on a department site may contain financial files, human resources files, and project documentation. The following table lists the retention policies that are in place.

You must administer retention rules from a single location for each type of document and must leverage out of the box functionality.

You need to configure the SharePoint environment to comply with the retention schedule.

What should you do?

**A.** Activate the In-Place Records Management feature.

**B.** Configure information management policies on content types.

**C.** Activate the Disposition Approval feature.

**D.** Configure information management policies for the document libraries.

**E.** Activate library and folder-based retention.

**Answer: B**
