NEW QUESTION: Which AWS Storage Service is used for static website content?
A. Amazon S3
B. Amazon EBS
C. Amazon CloudFront
D. Amazon S3 Glacier
Answer: C
Explanation: Amazon CloudFront is a content delivery network (CDN) service that accelerates the distribution of static and dynamic content. It is used for static website content.
Amazon S3 is a simple object storage service. Amazon EBS is an elastic block store. Amazon S3 Glacier is a low-cost storage service for long-term retention.

BExplanation: The reason DSW2 has not become the active switch for Vlan103 is because the priority value of DSW1 is higher than that of DSW2. In order to make DSW2 become the active switch, we need to increase DSW2's priority (to higher than 200) or decrease DSW1's priority (to lower than 190) -> B and C are correct. But there is another requirement from this question that "A failure on gig1/0/1 on primary device should cause the primary device to release its status as the primary device, unless GigabitEthernet 1/0/1 on backup device has also failed". This requirement makes answer B incorrect. For example, we choose to decrease the priority value on DSW1 to 160 (according to answer B) then DSW2 will become active switch (that is good). When Gil/0/1 on DSW2 goes down, the priority of DSW2 will be 190 - 50 = 140 < 160 -> DSW1 will become new active switch (it is good, too). But when Gil/0/1 on DSW1 also goes down, the priority of DSW1 will be 160 - 10 = 150 and it is still greater than 140 of DSW2 -> DSW2 cannot retake the active role as the requirement of this question.

NEW QUESTION: 3Universal Containers has a requirement for all accounts that do NOT qualify for a business extension (Custom field on the account record) for the next month to send a meeting invite to their contacts from the marketing automation system to discuss the next steps. It is estimated there will be approximately 1Million contacts per month.What is the recommended solution?**A.** Use Batch Apex.**B.** Use Time-based workflow rule.**C.** Use Trigger.**D.** Use Process builder.**Answer: A**
